Know more about us

Guangzhou Leichen Technology Co.,Ltd.

AI Empowers AOI

Upholding the mission of “ Make Industrial Inspection Easier” , taking deep learning algorithm as the core, MAKER-RAY has been specializing in the electronics industry for many years and is committed to providing customers with various optical testing solutions based on the visual inspection standardization scheme of the PCBA production process.

Products layout

SMT Line

- SMD/solder 3D inspection
- Dual side inspection
- SMD/solder 2D inspection
- Solder paste inspection

DIP Line

- DIP component inspection
- Solder joint inspection
- Bended foot inspection
- Dual side inspection

Coating Line

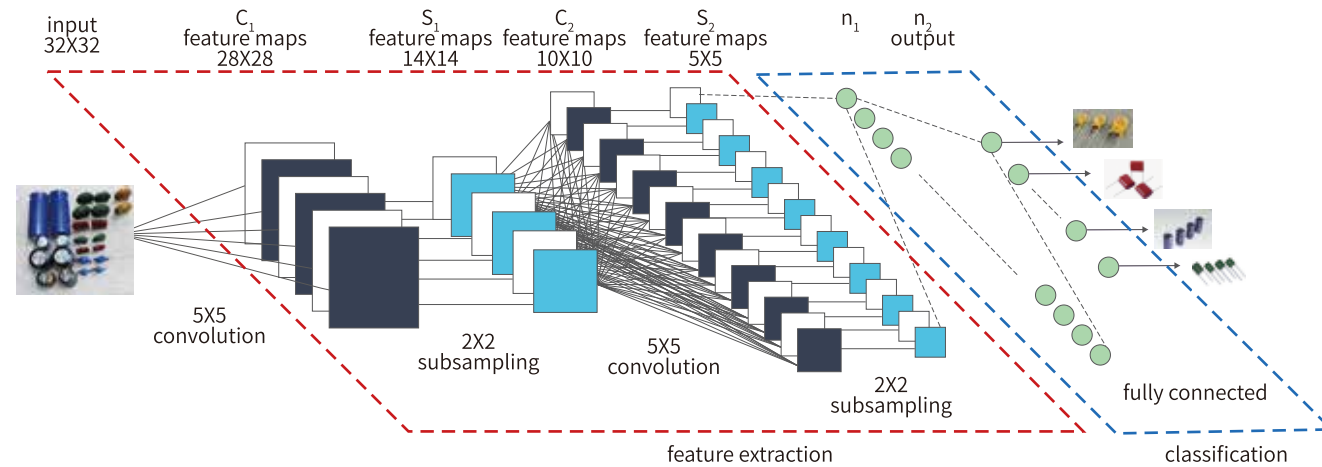

- Single side coating inspection
- Dual side coating inspection

Future planning

- Goldfinger inspection
- Semiconductor inspection
- Mini LED inspection
- ...

Core Technology

By applying deep learning algorithm and big data optimization in industrial inspection, Maker-Ray realizes intelligent minimalist programming, and enables intelligent judgment by one-click automatic identification of components and solder, thus addressing the two major pain points of traditional algorithms, namely, long programming time and high false alarm rate.

Strong Technology Accumulation

MAKER-RAY has obtained multiple certifications, including 77 patents and copyright, among which more than half are invention. All our products are protected with intellectual property rights.

Statistics end as of Jan. 21st, 2021

AIS20X Series-DIP

Online PCBA AOI For DIP Components To inspect defects of DIP components

Core Advantages

- Simple programming, easily operation, support online/offline programming
- Multiple inspection modes, adapt diversity of production
- Detailed data test report, support SPC alarm
- Multiple selectable options realize locate defects quickly and production line control

• AIS203

• AIS203-R | Provided with rail

•AIS203-R | Provided with rail (With jig backflow conveyor hole)

•Application | Before/After Wave Soldering

• Defect Types

• Production Line Control Box

- Automatically/manually control start/stop and positive/inverse of conveyor belt line for ensuring the defectives to be maintained in time.
- Make alarm for the abnormal inspection.
- Reserve a set of interactive interfaces, which can be designed according to site demand
- Easy to be installed due to its small size

•Specification

Category	Item	AIS203-12C		AIS203-29C	AIS203-R	
PCBA specification	Size	50*50~400*300mm		50*50~520*380mm	50*50~510*460mm (Height of rail: 750mm/900mm)	
	Height of elements	/				TOP:95mm, BOT:95mm
	Processing edge	/				3mm
	Thickness	0.5mm~6mm				
Optical specification	Camera	12MP, color		29MP, color	29MP/12MP, color	
	Light source	W light source		W + strip light source on four sides	W + strip light source on four sides/W light source	
	FOV	400*300mm		520*380mm	510*460mm/400*300mm	
	Resolution ratio	90um		80um	77um/90um	
Inspection- related function	Components	Absent, reversed, mis-alignment, broken, extra,foreign matter, stained, etc.				
	Other function	NG tracking bar(optional),control box(optional),mixed material inspection,multi-in-1 inspection, voicebroadcast, After oven mode;Mixing models inspection,support calling program automatically				
	Algorithm	CNN, color contrast, template matching, OCR ,etc.				
Software system	Operating system	Ubuntu 18.04 LTS 64bit				
	Function	Remote control, remote assistance, CAD file import and user-defined model training				
	Communication method	Standard SMEMA interface				
	Data output	Autogenerated statistic analysis SPC				
	Special function	Automatic search of elements and quick programming				
Hardware specification	Industrial control host	CPU: intel i5 Display card: Nvidia Independent GPU Accelerator Card Memory: 8G DDR, 256G SSD+2T Mechanical Hard Disk Network: 1000M Wired Network Card		CPU: intel i7 Display card: Nvidia Independent GPU Accelerator Card Memory: 8G DDR, 256G SSD+2T Mechanical Hard Disk Network: 1000M Wired Network Card	CPU: intel i5 Display card: Nvidia Independent GPU Accelerator Card Memory: 8G DDR, 256G SSD+2T Mechanical Hard Disk Network: 1000M Wired Network Card	
	Display	23.8 inch FHD display				
	Motion mechanism	/				High precision lead screw + motor
	Rail width control	/				Manual/auto
	Appearance/ electric	Dimention and weight	(L*H*W) 715* (1315-1700) * (760-1210) mm, net weight:100Kg			
Power supply and power		AC 220V, rated power 200W				AC 220V, rated power 300W
Air source		/				0.4-0.6Mpa
Work environment		Temperature:10~45℃, Humidity: 30~85%RH				

AIS30X Series-DIP

Inline PCBA AOI for Solder Joint
To inspect defects of solder joint of plug-in components
and SMT components on the bottom side

- Core Advantages**
- Optional three-section track design.
 - High speed, high precision and low wear.
 - AI algorithm. Quick location and easy programming.
 - Strong inspection capability.
 - Flexible combination with production line and applicable for multiple scenarios.
 - Traceable data and support SPC alarm.
 - Automatic cleaning function for lens.

	Air source	0.4-0.6Mpa		
	Work environment	Temperature: 10~45°C, Humidity: 30~85%RH		

• Repair Station with Cursor, locating defects quickly

- Off-line/On-line option

• Freely switch between single-point/multi-point cursor guide. High alignment accuracy

• Whole board projection guide maintenance personnel to repair quickly
- Avoid manual searching. Support operation on multiple work station. Enhance repair efficiency

• Multiple guide colors for selection. Avoid interference by board color

• Guide by areas. Higher efficiency

No.	Item	Offline repair station	Online repair station
1	Model	MKR-AOI-OFFLR101	MKR-AOI-ONLR101
2	PCB Size	550mm*380mm (Max 550mm*420mm)	550mm*400mm
3	PCB thickness	Less than 100mm	
4	Host	CPU:intel i3 Memory:8G DDR4 128G SSD Display:23.8寸 FHD Monitor Operating system:Ubuntu 18.04 LTS 64bit	
5	Overall dimension	(L*H*W) 550*830*760mm	(L*H*W) 900*1550*1100mm
6	Power supply	Single phase AC220V,50/60Hz	
7	Platform	Aluminium section frame + SECC matal plate	
8	Mouse and keyboard	Chocolate keyboard + Logitech mouse	
9	Foot plate	Metal USB foot switch	
10	Micro switch	Omron micro switch	
11	Conveyor	/	Mannual width-controlled conveyor with the plate loading height of 750mm (the height could be customized)
12	Free accessories	Soldering tin support and universal code scanner support	
13	Paid accessories	Code scanner (USB data interface) and electric soldering iron	
14	Rated (Max) power consumption	1220W	
15	average consumption	55W	

AIS40X Series-SMT

Inline PCBA AOI for SMT Components (2D)
To inspect defects of SMT components and solder

- Core Advantages**
- Bilateral telecentric lens, low distortion and high depth of field
 - Minimalist programming , simple interface. Support batch modifying parameters with one-click
 - Centralized control. Interconnection between multiple equipment
 - High inspection rate and low false alarm rate
 - Multiple configurations meet different inspection demands
 - Traceable data and support SPC alarm

• Industry 4.0 centralized management

Centralized management, Remote service
Networked distributed production equipment
Quick response, reduce disruption, improve efficiency

• Application | Before/after reflow

• Defect Type

• AIS401

• AIS400-D/401-D | Dual rail

•Specification

	Work environment	Temperature:10~45°C, Humidity: 30~85%RH		

AIS50X Series-Multi

Inline PCBA AOI for Double side
To inspect defects of components and solder for double side

Core Advantages

- Asynchronously photograph with double cameras to avoid interference of light source and raise inspection beat.
- Minimalist programming , simple interface. Support parameters batch modification
- High inspection rate and low false alarm rate
- Centralized control and multiple equipment interconnection
- Able to inspect defects of SMD/DIP/solder, applicable for multiple scenarios
- Traceable data and support SPC alarm

	Work environment	Temperature:10~45°C, Humidity: 30~85%RH				

AIS-Coating

Inline PCBA AOI For Coating
To inspect defects of coating, such as excessive, insufficient, splash, bubble etc.

- Core Advantages**
- Intelligently lock coating border,Automatically identify coating area
 - Intelligently judge bubble of targeted area. Minimum bubble diameter is up to 0.05mm
 - Able to inspect coating defects. Plug-in defects, SMT defects, soldering defects and other defects can be inspected after switching light source.
 - Support multi-in-1 panel inspection, mixed model inspection. Multiple configurations (whole board, double side) are available.
 - Traceable data and support SPC alarm

•AIS50XS-C | Double side

•Application | Before/after curing

•Defect Type | Switch light source to inspect*

AIS43X Series-3D

Inline PCBA AOI for SMT Components (3D)
To inspect defects of SMT components and solder
3D imaging, minimizing shadow problems

- Core Advantages
- Intelligently remove noise with depth map. Solve distortion problem in 3D imaging.
 - Measurement height can be configured, meeting a variety of inspection requirements
 - Dynamic self-adoption reference plane algorithm to calibrate substrate height
 - Multi-frequency four-step phase algorithm to strengthen robustness, avoiding influence of illumination changing imaging

Category	Item	AIS501-C
PCBA specification	Size	50x50mm~510*460mm
	Thickness	0.5mm-6mm
	Height of elements	Top:75mm, Bottom: 75mm
	Processing edge	3mm
Optical specification	Camera	Upper camera: 5MP/12MP, color Lower camera: 5MP/12MP, color
	Optical source	UV+W optical source / UV+RGBW
	FOV	21.5um@52.6*44mm, 15um@36*30mm/10um@30*40mm, 15um@60*40mm
	Resolution ratio	21.5μm/15um/10um
Inspection-related function	Coating	Excessive or less UV/UF gel, bubble in UV/UF gel
	Components	Absent, reversed, mis-alignment, broken, extra,foreign matter, stained, etc.
	Solder	Insufficient,excessive,bridge,, no foot, solder void,etc. (UV+RGBW source)
	Other function	Bar code Recognition / QR code Recognition/ OCR
	Mixing boards inspection	Yes,Support calling program automatically
	Algorithm	CNN, color contrast, outline recognition, offset inspection, template matching, OCR ,etc.
	Speed	0.23sec/FOV
Software system	Operating system	Ubuntu 18.04 LTS 64bit

AIS63X Series-SPI

Inline Solder Print Inspection To inspect solder print defects such as insufficient solder, excess solder and thickness defect etc

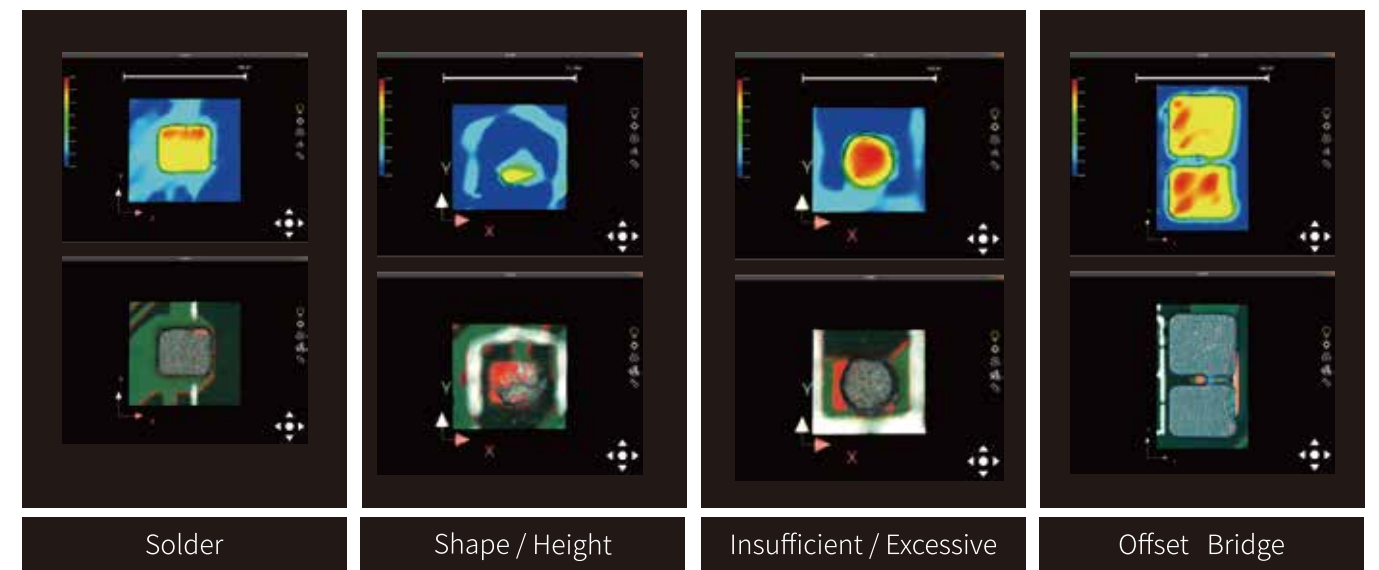

Core Advantages

- 3-point verification
- Realize closed-loop function combining printing machine
- NG board flying identification function & chip mounter BadMark point sharing function
- Minimalist programming, easy operation, multi-machine interconnection can be realized
- Support whole board image storage
- Realize real-time SPC monitoring and analysis

Application | After reflow

Defect Type

• AIS630P

• AIS630P-D | Dual rail

• Tracing system and 3-point verification function*

3-point verification function realized the unified monitoring of the whole production line, which is helpful for data tracing and improving production quality

Bar code tracing system

Sever

AOI after reflow

AOI before reflow

SPI

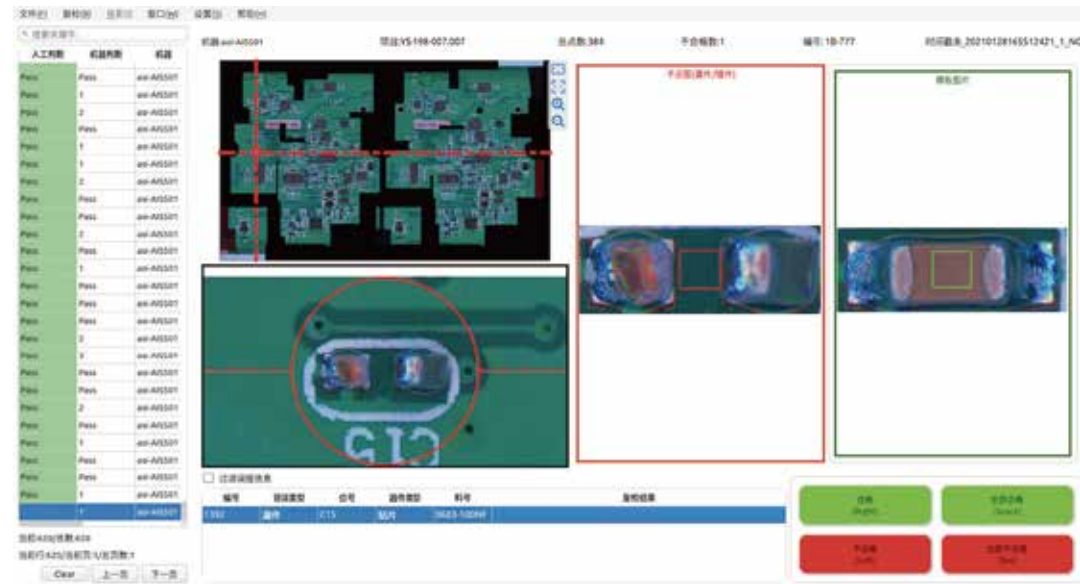

*SPI, AOI before and after reflow should be products of Maker-Ray

	Other function	Bar code Recognition / QR code Recognition/ OCR	
	Mixing boards inspection	Yes,Support calling program automatically	
	Algorithm	CNN, color contrast, outline recognition, image contrast,etc.	
	Speed	0.33sec/FOV	
Software system	Operating system	Ubuntu 18.04 LTS 64bit	
	Function	Remote control, remote assistance,Gerbe file import and user-defined model training	
	Communication method	Standard SMEMA interface	
	Data output	Autogenerated statistic analysis SPC	
	Special function	Automatic search of pad and quick programming	
Hardware specification	Industrial control host	CPU: intel i7 Display card: Gigabyte RTX2060 8G display Memory: 64G DDR, 256G SSD+2T Mechanical Hard Disk Network: 1000M Wired Network Card	
	Display	23.8 inch FHD display	
	Motion mechanism	High precision lead screw + servo motor	
	Rail width control	Manual/auto	
Appearance/ electric	Dimention and weight	(L*H*W) 1110*1656*1605, net weight:870Kg	(L*H*W) 1110*1280*1605, net weight:1080Kg
	Power supply and power	AC 220V, rated power 570W	AC 220V, rated power 650W
	Air source	0.4-0.6Mpa	
	Work environment	Temperature: 10~45°C, Humidity: 30~85%RH	

MKR-AOI-RS100 | Workstation for Maintenance

• Used with AIS30X, AIS40X, AIS50X and AIS63X to locate defects.

Advantages

9001&14001 Quality System Certificate

With over 70% of technical staffs for R & d

Share the suppliers and manufacturing system from the purchasing platform valued RMB ten-billion.

With over 10 years of experience for industrial research and development and supply chain management .Deeply research in deep learning algorithm and its visual application

Join Hands and Work Towards Win-win
